SUMMARY

Junior DevOps Engineer with hands-on internship experience at Davine Technologies specializing in cloud infrastructure automation, CI/CD pipeline management, and Linux administration. Proficient in AWS, Docker, and Terraform to build secure, scalable, and automated deployment workflows.

SKILLS

Cloud & DevOps: AWS, Azure, Docker, Kubernetes, Jenkins, Terraform, Ansible, GitHub Actions

Networking & Monitoring: TCP/IP, Subnetting, Load Balancers, DNS, SSH, HTTPS, CloudWatch, Grafana

Operating Systems: Linux (Ubuntu, CentOS, RHEL - Server Administration, Shell Scripting)

Programming & Databases: HTML, CSS, JavaScript, Java, Python, SQL, MySQL

Tools & Web Servers: Git, GitHub, GitLab, Nginx, VS Code

PROFESSIONAL EXPERIENCE

DevOps Intern | Davine Technologies

July 2026 – Present

- Automated CI/CD delivery pipelines using Jenkins and GitHub Actions, reducing manual deployment effort and accelerating release cycles.
- Managed and optimized cloud infrastructure on AWS and Linux systems, maintaining high availability and system reliability.
- Configured Docker containerization workflows and automated server tasks via Ansible and Shell scripting to improve operational efficiency.

PROJECTS

End-to-End Automated CI/CD Infrastructure Pipeline

Jenkins, Docker, AWS EC2, Terraform

- Designed and implemented an automated build and deployment pipeline integrating Jenkins, Docker, and AWS EC2 for consistent, repeatable releases.
- Used Terraform for Infrastructure as Code (IaC) to provision reproducible, version-controlled cloud environments.
- Configured secure VPCs, DNS, subnetting, Application Load Balancers (ALB), and HTTPS for reliable microservices communication.

Production-Ready Cloud Infrastructure & Web Deployment

Nginx, Linux, AWS

- Configured Nginx web server as a reverse proxy for secure frontend/backend traffic management and high-performance routing.
- Integrated containerization and automated environment setups to ensure zero-downtime deployments and system fault tolerance.
- Applied Linux administration and monitoring best practices to maintain application availability and streamline troubleshooting.

CERTIFICATIONS

AI DevOps Analyst – National Association of Software and Service Companies (NASSCOM) (2026)

EDUCATION

B.Sc. Information Technology | University of Mumbai

Graduated: 2026 | CGPI: 8.58 / 10
